

## Understanding Yourself <sup>Part</sup> <sub>Three</sub> with Kuthumi, Lord Lanto, and God Meru

“Understanding Yourself” Part 3, the final seminar of this three-part series, takes you to the next level of understanding the human psychology. Based on one of the chapters in the book, Mrs. Prophet gives a detailed list of the traits of the human ego and how to recognize and overcome each one. The seminar culminates in a powerful release of the power of joy, as a victorious conclusion to this profound series of discoveries on the path of knowing oneself—and knowing oneself as God.

*Consciousness, when functioning properly, is a glowing orb of reality, joy, and full illumination. The individual reaching-out from the seemingly separated center of being to contact the cosmic center of life and thence the periphery of all reality is accomplished as easily as the miracle of the radiant, expanding mind of God penetrates the universe with light.*

—God Meru
